## HAVE YOU SEEN....

PTA is missing the color game that they use at the Fall Festival. If you know where it is, please call Anne Bowden or the school office as soon as possible. Thank you.

## EMAIL ADDRESSES:

The Communications Committee is working hard to obtain all email addresses for the parents of Hooper Academy students. It is very important that we have your correct email address because the office will start using email to notify parents of events, closings, game cancellations and other important information. Room mothers and teachers will also be utilizing the email system to contact parents.

Also, as of October, the Green and White will only be available through email, unless you request a paper copy be mailed to you.

## K5 – NEWS

Mrs. Woodham and her seventeen eager students have been off to a great start this year. We began the year with our “Mom and Cookies” meeting. Mrs. Woodham prepared cookies and ice cream sundaes for the kindergartners and their moms and a few dads. She read a special book entitled “The Kissing Hand” by Audrey Penn. This day was so special for parents and kids alike.

Our first project for kindergarten was the K-5 Memory Bag. Each student decorated a bag and included items that represented things that reminded them of their family, their favorite activities and things special to them. All the students enjoyed this special project. It allowed them to share special aspects of their life with Mrs. Woodham and the entire class.

We are also proud to announce that our class has 100% PTA participation. We have a wonderful group of kids and parents. We are looking forward to many more exciting events this year.

From the Headmaster...

## Does Your Child Learn Like You?

You probably remember what school was like when you were a child. You know what subjects you enjoyed – and you may remember the subjects you didn't like. You also know how you learned new information the best. Maybe you retained more when you read your textbook or maybe you liked it better when the teacher lectured or maybe you did the best with hands-on activities. You likely still discover new information in the same way you picked it up in school.

However, when it comes to your child, you need to forget everything you remember about your school preferences. That may sound drastic, but it's really necessary if you want your child to do his or her best. Your child is a unique individual. Not only is it likely that he or she likes different subjects, but your child may also learn differently than you do.

In terms of learning styles, there are three main types: visual, auditory, and kinesthetic or tactile. Your child may use one or all of these styles as he or she progresses through school. The rest of this letter will define these styles and give you strategies to help your child make the most of his or her dominant learning style in school.

**Visual learners benefit from seeing or observing the way something looks or works.** Think about and ask your child the following question. Does he or she have a hard time remembering names but can always remember a face? Ask your child how he or she recalls information. Does he or she see images? If so, your child is likely a visual learner.

If your child is a visual learner, help him or her try the following approach:

Ask your child to highlight important information on worksheets or handouts.

Make flash cards for your child. Simple math facts and vocabulary words lend themselves well to flash cards.

Help your child make charts, diagrams, and graphs to better understand and express information.

**Auditory learners learn best by hearing or listening.** If your child is an auditory learner, he or she probably retains more information when the lesson is presented verbally and when the teacher questions the whole class. Ask your child if he or she does well in class discussions. Is he or she easily distracted by noises? If the answer to either of these questions is yes, your child is likely an auditory learner.

You can help your auditory learner do better by:

Reading aloud to him or her or having your child read material aloud.

Using mnemonic devices or phrases when memorizing materials. Do you remember all the colors of the rainbow? If you memorized ROY G. BIV, you probably do.

Allowing your child to study with a friend so he or she can hear and talk about information.

**Kinesthetic or tactile learners learn best by touching or doing.** You'll know easily if your child is a tactile learner. Is he or she the only person in the family who can set the digital recorder or run the computer? Does he or she love to build things? Is your child often out of his or her seat in the classroom? Then your child learns best with hands-on activities.

You can try the following things to help your kinesthetic learner do better in the classroom:

Ask your child to act out or demonstrate concepts. For instance, to help your child understand that verbs are action words, you might have him or her act out the meaning of the word.

When helping your child with homework, give him or her a real world perspective on the content. For example, if your child is working with fractions, get out the measuring cups.

Take advantage of hands-on projects. Your tactile learner will enjoy these assignments the most.

Allow your child access to multimedia applications and learning tools on the computer.

Help your child discover his or her own learning style. By doing so, you not only make your child more responsible for his or her own learning, but you heighten his or her awareness of how he or she learns. With your help, your child can develop strategies for making the best use of his or her dominant style – as well as overcome any obstacles he or she may have with other learning styles.

Sacrifice some time and learn how your child learns and how you can help him or her. May God bless you and your family.

Sincerely,

Dr. John D. Niblett

## FALL FESTIVAL

The Hooper Academy PTA will sponsor its Fall Festival on **Saturday, October 20, 2007**, from **1:00 p.m. until 5:00 p.m.** This is a family event and we encourage you to bring your families and friends to participate in this festive occasion.

As in years past, we will have an art contest open to all students, from preschool to twelfth grade. The theme is "Change". Art can be done in crayon, pencil, or paint and should reflect "change". We will have a first, second, and third place winner for each of the following age groups: preschool – K4; K5 – second grade; third grade – fifth grade; sixth grade – eighth grade, and ninth grade – twelfth grade. All art projects should be turned in by 7:50 a.m. on Friday morning, October 19, 2007, in the gym. The artwork will be displayed in the cafeteria and will be judged prior to the start of Fall Festival.

We are having a costume contest for anyone interested in participating. We will have a first, second, and third place winner for the following age groups: preschool – K4; K5 – second grade; third grade – fifth grade; sixth grade – eighth grade; and ninth grade – adult. If you are interested in participating in the costume contest, please stop at the costume registration table between 1:00 p.m. and 3:00 p.m. and let us take a picture of you in your costume. The judge will then select the winners and all winners will be notified by 4:00 p.m. during the Fall Festival.

We are having a pumpkin decorating contest for the preschool and elementary classes. These pumpkins will be on display and an award will be given for the best pumpkin prior to the start of Fall Festival. Pumpkins will be collected from each classroom on Friday morning, October 19, 2007.

Your room parents will soon be contacting you regarding pre-sale tickets for Fall Festival. Each booth, game, and activity 'cost' one punch. Pre-sale tickets will be available for \$10.00 the week of October 15<sup>th</sup> – October 19<sup>th</sup>. The pre-sale tickets will have (25) punches, which will allow your child to participate in twenty-five activities. Tickets will be sold the day of Fall Festival and will cost \$10.00. The day-of tickets will have (20) punches, which will allow your child to participate in twenty activities.

Volunteers are needed to assist with this event. This is a great way to get some work assessment hours, as well as a wonderful opportunity for networking and becoming involved. If you are interested in volunteering your time, please tell your room parent. We look forward to a fun and successful event. Hope to see you there!

**HOOPER ACADEMY  
WORK ASSESSMENT PROGRAM**

This work assessment program was created to stimulate and increase participation and involvement by all families in maintenance and other activities at Hooper Academy and was approved by the West Montgomery Education Foundation Board members. Families who do not desire to actively participate in maintenance, repair, and other projects which save the school operating expense or make money for the school, may elect to pay the optional assessment of \$360.00 per school year.

**Program Guidelines**

1. Work Verification Forms are available in the office and show details of work performed, the number of hours worked, a space for your signature verifying the work, and a space for the form to be signed by an authorizing member. Authorizing members are any member of the current board of trustees, headmaster, booster club officers, PTA officers, or fine arts officers. If you turn in a form without a signature from one of these authorizing members it will not be credited to your account. All Work Verification Forms must be turned in within the calendar month in which the work was performed. Verification forms turned in outside the calendar month in which the work was performed will not be credited to your account. For work assessment program purposes, the school year runs from June 1<sup>st</sup> to May 31<sup>st</sup> each year.
2. Assessments will be prorated according to hours worked.  
Example  
Works hours required from each family:  $24 \times \$15.00 = \$360.00$   
Work hours credited to your family:  $16 \times \$15.00 = \$240.00$   
Assessment due for the year = \$120.00
3. Statements for assessments will be mailed before May 15<sup>th</sup> each year and are due before June 15<sup>th</sup> of the school year. All Work Verification Forms and assessments due must be completed or paid in full before final report cards are issued.
4. Work performed on school grounds, in or on school facilities, money-making projects, concessions, providing transportation for student groups, or other approved work, will count as work hour credits. Any person or family having difficulty reaching their required hours should contact the school office for work assignments well in advance of the end of the school year. Hours worked over 24 per year will not be forwarded to the next year. However, we do need and appreciate all time worked for the improvement of our school.
5. Each individual or family is responsible for completing, signing, acquiring an authorizing member's signature, and turning in the Work Verification Form to the office for processing. Due to billing concerns, Work Verification Forms must be signed by an authorizing member and turned in to the office within the calendar month the work was completed or the work hours will not be credited to your account. Work Verification Forms are the only authorized forms, not spreadsheets or other paperwork.
